KENNEWICK IRRIGATION DISTRICT

NOTICE OF MITIGATED DETERMINATION OF NON-SIGNIFICANCE

TD 2018-04

NOTICE IS HEREBY given that the Kennewick Irrigation District (KID) has issued a Mitigated Determination of Non-significance under State Environmental Policy Act Rules (Chapter 197-11 WAC).

Project Description: The Badger East Canal Lining Project will consist of the placement of lining material onto an existing earthen section of KID canal and replacement of an existing siphon. The work will consist of clearing vegetation and removing earth from the canal prism to widen the canal, grading, and establishing a maintenance road on the uphill side of the canal (where there is currently no road), and installing lining material in the canal prism, as well as, excavation and installation of a 24-inch pipe and concrete outlet facilities. The project will occur along approximately two and seven-tenths (2.7) miles of the Badger East Lateral.

After review of a completed environmental checklist and other information on file with the agency, KID has determined that the proposed project will not have a probable significant adverse impact on the environment. This determination is based in part on mitigating terms and conditions prescribed in the Mitigated Determination of Non-significance.

Public Review: Interested parties may view the Mitigated Determination of Non-significance and associated technical support documents, Monday through Friday between 8:00 am and 5:00 pm at the KID administrative offices located at 2015 South Ely Street, Kennewick, WA 99337. Alternatively, the document and related materials may be viewed at the KID website at www.kid.org.

Comment Period: KID will not act upon this determination for a period of at least fourteen (14) days. The public is invited to comment on this Mitigated Determination of Non-significance by submitting written comments to the address listed above. To be considered, all comments must be received by KID by the close of business on November 14, 2018.
