**KENNEWICK IRRIGATION DISTRICT
2013 ASSESSMENTS**

Each parcel will be charged according to the 2009-2013 adopted Toll Structure:

Tier	Parcel Size	Non-pressurized	Pressurized
1	Less than or equal to 0.0750 acres	\$20	\$20
2	Between 0.0751 and 0.150 acres	\$185	\$270
3	Between 0.151 and .250 acres	\$210	\$310
4	Between .251 and .450 acres	\$230	\$350
5	Between .451 and .650 acres	\$260	\$400
6	Between .651 and 1.100 acres	\$290	\$460
7	Between 1.101 and 1.800 acres	\$330	\$525
8	Between 1.801 and 3.000 acres	\$370	\$595
9	Between 3.001 and 5.000 acres	\$415	\$680
10	Between 5.001 and 8.000 acres	\$465	\$775
11	Larger than 8.001 acres	\$80/acre	\$100/acre

Condominium & Townhome Units Rate Calculation: KID is required by State Law to assess against individual condominium units for their proportionate ownership share of the total acreage of the project as identified in the condo declaration or legal ownership documents. The exception to this would be where the common area is legally owned exclusively by the Homeowners' Association, which would be assessed like any other property owner. The KID assessment for units developed and held under the enabling condominium legislation (Chapter 64.32 and 64.34) shall be: The Tier 1 Charge above plus any applicable fees below, assessed against each condominium unit.

In addition to the above eleven tier charges each parcel, including condominium units, will be charged:

1. The 2013 Capital Project Assessment of \$53.09.
2. Any applicable United States Bureau of Reclamation (USBR) construction loan payment (estimated at \$3.29 per acre for old lands and \$4.34 per acre for new lands).
3. Parcels with outstanding KID-financed Local Improvement District construction notes will be assessed, as applicable, according to their individual loan agreements.

EXCESS WATER:

Excess water charge for non-pressurized systems will be as follows: The annual allotment of water is 3.5 acre-feet of water per acre of land. For the first acre-foot or fraction thereof above allotment, at a rate of \$27.43 per acre-foot ($\$80.00/3.5 = \$22.86 \times 120\% = \27.43); for each acre-foot or fraction in excess of the first acre-foot above the allotment, the rate is \$32.00 per acre-foot ($\$80.00/3.5 = \$22.86 \times 140\% = \32.00).

Excess water charge for pressurized systems will be as follows: The annual allotment of water is 3.5 acre-feet of water per acre of land. For the first acre-foot or fraction thereof above allotment, at a rate of \$34.28 per acre-foot ($\$100.00/3.5 = \$28.57 \times 120\% = \34.28); for each acre-foot or fraction in excess of the first acre-foot above the allotment, the rate is \$40.00 per acre-foot ($\$100.00/3.5 = \$28.57 \times 140\% = \40.00).

NOTE

The figures above represent the US Bureau of Reclamation and Kennewick Irrigation District Maintenance and Operations charges which apply to **all** parcels.
